DETAILED ACTION

Response to Amendment

1. The amendment filed on 4/26/05 has been entered.
2. The objection to claims 43 & 46 under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim is withdrawn due to the amendment of the claims
3. The rejection of claim 43 under 35 U.S.C. 101 as claiming the same invention as that of claim 1 of prior U.S. Patent No. 6,504,007 B1 is withdrawn due to the amendment of the claim. However, the amendment to claim 43 has necessitated the rejection below to claim 2.
4. The rejection of claims 41-42, 44-46 & 59-60 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 2 of U.S. Patent No. 6,504,007 B1 is withdrawn due to the submission of a terminal disclaimer.
5. Applicant's arguments filed 4/26/05 have been fully considered but they are not deemed to be persuasive.
6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 1649

7. Claims 41-42, 44-45 & 59-64 are allowed.

8. Claim 43 is rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 2 of prior U.S. Patent No. 6,504,007 B1. In other words, these claims are of identical scope, even though claim 43 is dependent on claim 41 in the instant application, versus being an independent claim as in '007. This is a double patenting rejection.

9. Claims 43 & 46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The "extracellular domain sequence" is alternatively defined in the specification "as set out between amino acids Asp25 and Gly427"; thereby, making the recitation of "as set out between amino acids Asp25 and Ser468" indefinite.

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
